

Description	Yeast nutrient for use during alcoholic fermentation. It is a natural additive that provides ammonium nitrogen substances, cell walls, amino acids, B vitamins, inactivated yeast, autolysates and polysaccharides from the cytoplasm in a balanced ratio.
Composition	Cell walls derivatives, inactivated yeast, yeast cytoplasm, yeast amino acids, ammonia salts.
Technical specifications	<p>►Balanced supply of ammoniacal and amino acid nitrogen, mainly indicated for the initial fermentation phase.</p> <p>For professional oenological use in compliance with EEC/EU Reg. N°934/2019 and International Codex OIV.</p>
Applications	<p>It is a readily digestible source of nitrogen that allows the yeast to follow the correct fermentation process.</p> <p>Recommended dosage: 10 to 40 g/hl.</p>
Preparation mode	Mix directly in the must at the time of use.
Packages	5 Kg aluminium bags.
Shelf life and storage	<p>Keep in a cool, dry place away from light.</p> <p>Shelf life: as stated on the label.</p> <p>GMOs free in compliance with EEC/EU Reg. n. 1829/2003 and EEC/EU Reg. n. 1830/2003 and subsequent amendments.</p> <p>Allergens free in compliance with EEC/EU Reg. n. 1169/2011 and subsequent amendments.</p>
